## ABOUT ME

### STUDENT AT GRAPHIC ERA UNIVERSITY | BTech CSE

May 2021 – 25 | Dehradun, Uttarakhand

- I am an undergrad fresher, quick learner, like to hover on different technologies. Always ready to accept new challenges and different approaches in mainstream.

## ACTIVITIES

### MAIN - TRAVERSING OVER | LEARNING DURING COLLEGE

Jan 2021 – Current

- Learned, created basic apps on the go with tutorials from developers.google.com. Currently working on a nodejs based bot and my portfolio website from scratch.
- Joined my college, participated in many events; in IEEE coding contest and reached final in 3 div round. Became member of our GDSC as graphic designer. Currently I am a campus ambassador at BECon-IITD and Internshala Learnings.
- During the phase between school and college, After participating in Indiaskills WebDev contest, worked on enhancing my Web Development and designing skills; Then worked in a marketing startup with a team. Also learned and made a flutter app ui meanwhile for a shipping startup.

### INIT - STARTING LEARNINGS | LEARNINGS DURING SCHOOL

During 2019 – Jan 2021

- Created my school in 3D third person perspective game like view using Unreal Engine 4 blueprints and Blender, compiled and designed mainly for android.
- Explored reverse engineering, raspberry pi, rooting, server administration, lua injections, cpp and bash, including freelancing and opensource.
- Started and hosted my microblog JemboTech with posts content related to utility and ease of access.

## PROJECTS

### EMS - EMPLOYEE MANAGEMENT SYSTEM | TKINTER GUI

2021

- For my CBSE - Intermediate, computer science end-term project, I made a GUI based tkinter Python3 project.
- It is capable of basic operations which a typical EMS application have, such as insertion, deletion, updation, with csv support.

### DIMENCART - ECOMMERCE WEBSITE | BOOTSTRAP, 3JS | (CURRENTLY WORKING)

2022

- It is yet another e-shopping website with modern styles, bootstrapped, powered by semantic ui and threeJS.
- It renders products listed on it in 3D view for display counter.
